

Donor Advised Gifts (DAGs)

Single gifts are the perfect solution for US donors who want to give globally without establishing a Fund at CAFAmerica. Single gifts allow individual and foundation donors to make a smaller number of grants, on a schedule or as desired; are a compliment to services provided by professional advisors; and are a resource for companies to support a variety of causes. Donors can make tax effective single contributions to CAFAmerica and recommend that grants be made to foreign charitable organizations. CAFAmerica can also recommend a charity that fits a donor’s interests and philanthropic goals.

Donor Advised Gifts at CAFAmerica are an excellent way to establish a relationship with a foreign nonprofit, and are the realization of a desire to make a difference. CAFAmerica’s expertise in working with foreign charitable organizations ensures that all grants are made safely and effectively to legitimate charitable organizations.
